

# Funding Institutional

Gain a competitive edge  
with funding insights, discovery & decisions

*“Only one in five proposals are accepted in the U.S. and this ratio is even lower for junior researchers”*

Source: nih.gov

## How Funding Institutional helps institutions to discover relevant grant funding

Gain a competitive edge with a holistic view of the research funding landscape using a single solution that combines over 20,000 active funding opportunities with information on over 2 million awarded research grants from a wide-range of funders.

Funding Institutional informs your research program strategy by helping you find active, accurate funding opportunities in a timely manner from nearly 3,000 government and private funding organizations, and by offering insight into research that has already been funded in your area of interest.

### Gain insight into the funding landscape

Attain an in-depth understanding of the funding landscape by combining awarded grants data with active and accurate funding opportunities.

### Search and discover new funding sources

Identify opportunities and funders by research area, keywords or researcher profiles. Stay current by saving your search criteria to discover additional relevant awards in a timely manner, as they become available.

### Track and manage

Track opportunities of interest to be alerted as soon as they are updated or when a deadline is approaching. Export data to Excel / CSV for more detailed analysis and intelligence.

### Disseminate opportunities

Quickly and easily disseminate relevant funding opportunities by email or by sharing a direct link to an opportunity.

### Select relevant opportunities & filter for limited submission

Assess eligibility by reviewing awarded grants and identifying funders who previously awarded grants to your institution or your area of interest. Filter by limited submission or other criteria to identify the most relevant opportunities.

## Unlocking value by combining data sources

Funding Institutional sources data on active funding opportunities, awarded grants and funder profiles and combines it in such a way that, whatever role you play as an insitutional stakeholder, you can apply it directly to your work, responsibilities and workflows.

Funding Institutional is unique due to our combination of data sources. It is the only solution to provide active, accurate funding information on a wide range of funders, while simultaneously delivering insights into awarded grants.

## Funding Institutional offers access to the following content:

**3,000+**

government and private funding organizations, including 1,600 funders in the U.S.

**20,000+**

active funding opportunities

**\$70+ Billion (USD)**

worth of active funding opportunity

**2M+**

awarded grants

**\$2+ Trillion (USD)**

worth of awarded grants

### Funding Institutional data quality standards are set according to Elsevier standards, which define high-quality data as being:

- **Current:** Funding Institutional is updated on a daily (tier 1) to weekly (tier 4) basis following updates on funder websites
- **Correct:** Funding Institutional is curated and spot-checked by Elsevier before updates are made available to users
- **Comprehensive:** The breadth of information on Funding Institutional is comprehensive, even including data on previously awarded grants
- **Consistent:** Funding Institutional collates data from all funders and presents it in a standardized format

## Benefits and unique value for institutional staff

Through its many use cases and features, Funding Institutional saves you time and resources by consolidating the funding workflow and merging funder data into a single, comprehensive overview.

### Benefits

**Uncovers new funding sources**

**Insures efficient use of time and resources**

**Supports strategic decision making**

### Distinguishing Features

**Our data:**

combining funder, funding opportunities and awarded grants data from a wide range of funders, keeping users up-to-date in a timely manner

**Our product:**

a single solution that supports funding insight, discovery and decision-making

**Our ecosystem:**

integration with unique Elsevier assets, such as Scopus and the Elsevier Fingerprint Engine
