Instructions

The Virginia Tech Research Administration Program, sponsored by the Office of the Vice President for Research and Innovation, is a voluntary training program that consists of a total of 10 courses. This program is designed for all employees that currently performs duties related to research administration. Each course will be a comprehensive tutorial that will provide information pertinent to research administration at Virginia Tech. The simple checklist above has been created to assist you in tracking your progress through the program.

- To register for a course, go to www.training.vt.edu, then view by category, click on the Office of the VP for Research, select the session you're interested in and choose one of the available dates. We also have additional on-demand (ie. prerecorded) trainings available in Courseware. To register and access these prerecorded courses, go to www.training.vt.edu, then view by category, click on the "Office of the VP for Research", select the session you're interested in and choose one of the available dates. **The course titles for our on-demand trainings are preceded by the acronym "OVPRI-Recording" but all course titles for our live trainings are preceded by the acronym "OVPRI". You will receive an email confirmation for each enrollment containing a link to the recording.**

- Participants who are pursuing the certificate of completion will be required to take a quiz for each workshop (except for Banner) and obtain a score of 100% (Responsible Conduct of Research only requires a passing score). Participants can take the quiz multiple times as necessary.

- All quizzes can be found on the VT Research Administrator Canvas Site https://canvas.vt.edu/courses/46766 (except the Responsible Conduct of Research quiz which is embedded in CITI). For instructions on how to access Canvas go to http://www.research.vt.edu/professional-development/programs/research-administrator/how-do-i/.

- Research is a rapidly evolving landscape therefore we ask that all workshops be completed within a two year period to count towards either the Level I or Level II certificate programs. Courses can be re-taken anytime and completed in any order. There are no prerequisites for participating in any of the workshops and those not pursuing the certificate of completion are not excluded from attending any of the workshops.

- Once you have completed the program please send a copy of this completed checklist along with your certificate of completion for Human Subjects Research Compliance and Responsible Conduct of Research to Quinn Steen at qsteen@vt.edu and Vicky Ratcliffe at vratcliffe@vt.edu. For questions call 540-231-2336.
